Big Bird's Special Delivery

An object recognition game.
Why are CTW Computer Games Different?

Since 1968, Children's Television Workshop (CTW) has demonstrated that one of the greatest vehicles for learning is fun. The computer activities developed by the CTW Software Group for CBS Software continue this tradition, drawing on the interactive capability of the computer.

The Goals of CTW Games

These computer games have extended the goals pioneered by CTW in television with *Sesame Street*, *The Electric Company* and *3-2-1 Contact*. Friendly and engaging, they encourage constructive play and active learning. CTW games allow children to experiment and explore, to think and solve problems, and to practice skills while they are having fun. Each one is designed to be a family experience—where everybody plays together and learns from each other.

Computers and Learning

Equally important, the computer has brought an exciting new dimension to electronic learning—that of interaction. A great deal of planning and research have gone into making these games responsive to children of different ages and learning styles. Whenever possible, the level of difficulty, pacing and direction of the games are under the control of the player. As the child responds to the computer, the computer responds to the child.

**BIG BIRD'S SPECIAL DELIVERY** provides a playful setting in which children can practice an important preschool skill: classification of objects. Children feel at home with their Muppet friends, especially Little Bird—who is just their size and relies on their help! Emphasizing computer interaction and featuring lively, colorful graphics, this unique computer activity helps children improve their understanding of the attributes of form, class and function—while having fun!
You're going to like playing 
**BIG BIRD'S SPECIAL DELIVERY.**
It's a game made just for kids like you.

At Children's Television Workshop, we think kids are special. That's why we thought about what kids like best and what makes games fun when we created this game and the activities that go with it.

So, if you're ready for fun, let's get started!

**Get Ready**

The Reference Card included with **BIG BIRD'S SPECIAL DELIVERY** contains all the information needed to set up your computer. It also helps you get started enjoying all the fun of this game right now! So look at the Reference Card first and come back to this manual for the rest of the details.

Parents:
We have tried to describe each activity as clearly as possible in the hope that you will read this booklet with your child.

Whenever you see a paragraph with this symbol, you will find additional notes to help you guide your child through the game.
Here are two mail-birds we'd like you to meet, Big Bird and Little Bird of Sesame Street!

They have lots to deliver—
But where should they go?
They need your help...
Because only you know!

Big Bird and Little Bird are in business! They have all kinds of packages to deliver—and neither rain, nor snow, nor gloom of night will stop them. But they need your help! It's up to you to take each package to the right store.

There are two games listed on the opening menu. In The Same Game, the child must make exact picture matches. In Find the Right Kind, the child must look at a picture and match it according to its category. A list of categories and pictures appears in the back of this manual. By reading and performing the instructions for each game along with your child, you can help him or her learn to play.

Once a child knows how to play a game, he or she can choose from two levels. In Level A, all four pictures above the stores must be matched before new pictures appear. In Level B, all four store pictures change after each match.
The Same Game

Here comes Big Bird with a package for you. Look carefully at the picture on your package. Now look at the pictures over each of the stores on Sesame Street. See if you can find the picture that has the same shape and the same color as the one on your package. Only one picture will be just the same!

Found it? Great! Now you can help Little Bird bring the package to the store with the matching picture.

To help your child focus on visual details, point to the picture on the package and then to each of the pictures on the stores. Ask if any of these store pictures looks just like the one on Little Bird's package.
On The Move

Look at the computer keyboard. Press ← or → to move Little Bird back and forth across Sesame Street. When you think he has reached the right store, press ↑.

*If the picture on the store is the same as the one on your package, Little Bird will fly up and make the delivery.

*If the pictures are not the same, the storekeeper will shake his or her head "no."

Check the picture on your package and look more carefully at the pictures above the stores. Now try again. Use ← or → to move Little Bird to the store with the matching picture.

Each time you deliver a package, Little Bird will fly down to the ground and wait for you to press RETURN↑. When you do, Big Bird will bring you a new package to match and you are off to make another delivery!

At first you might need to remind your child to press RETURN after each delivery. Say something like "Press RETURN to tell the computer that you are ready for a new package." This will help the child see that the computer relies on his or her input.

▲ Commodore 64 and IBM-PCjr. users: Be sure to check your Reference Card for the proper keys to use.
Find The Right Kind

Look sharp, mailbird! Big Bird is back with more packages, but this time your job is a little different. Look at the picture on each package. What kind of object do you see?

Do you see an apple? That's a kind of fruit. So this time, look for a store that has another kind of fruit... like a banana or a strawberry. What if your package has a hat? That's something to wear. So look for a store that sells things that you wear.

Remember, press ← or → to move Little Bird to the correct store. Then press ↑ to tell Little Bird to deliver the package!

After each package is delivered, Little Bird will fly down and wait for you to press RETURN. Then he will bring you a new package to match!
Done with your rounds, mailbird? Before you call it a day, try these activities!

**I SPY**

Are you a good spy? Try this game of clues and questions and see how quickly your friends can spy what you are seeing!

Say you’re sitting in the kitchen with your sister. Look around you, “spy” a secret object, and you’re ready to play!

“I spy something *round,*” you say.

“Is it as *big* as your head?” your sister asks.

“No, *smaller,*” you say, being very careful not to look at your secret object.

“Is it made of *metal*?” she asks.

“Nope,” you answer, “it’s made of *plastic.*”

“Is it *black*?” she asks.

“Yes,” you reply, knowing that the jig is up.

“It’s the *oven knob,”* she says. And she’s right!

Now it’s your sister’s turn to “spy” a new secret object—and it’s your turn to guess! Take turns spotting and guessing objects until you’re all spied out!
Bert and Ernie Clean Up Their Room

Your buddies Bert and Ernie are in a fine mess! They've left things all over their room. You can help them clean up... just draw a line from each object to the place it belongs. Then color in the picture any way you want!
**Mirror, Mirror**

What does a mirror do?
It looks just like you.
You can be a mirror, too!

First, find a friend. Face each other and hold your hands out so your fingers touch.

Decide who will be the Mirror and who will be the Player.

OK, Player, think of a funny way to stand. Now, freeze!
Mirror—match that move! Stand exactly the same way your friend is standing.

Did you do it? Great! Now it's the Mirror's turn to be the Player.

If you want to make the game a little harder, try moving together. That's right Mirror, you have to move in the same way, and at the same time as the Player. (*Move slowly, Player, so that the Mirror can follow you!*).

CBS Software values its customers and believes they should be aware of their rights, not merely of ours, under the Copyright Law. To that end, we quote for the purchaser of this equipment the provisions of section 117 of that law which contains limitations on the exclusive rights of copying and adaptation which that law gives, among other rights, to copyright owners of computer programs:

"Not withstanding the provisions of section 106, it is not an infringement for the owner of a copy of a computer program to make or authorize the making of another copy or adaptation of that computer program provided:

(1) that such new copy or adaptation is created as an essential step in the utilization of the computer program in conjunction with a machine and that it is used in no other manner, or

(2) that such new copy or adaptation is for archival purposes only and that all archival copies are destroyed in the event that continued possession of the computer program should cease to be rightful.

Any exact copies prepared in accordance with the provision of this section may be leased, sold, or otherwise transferred, along with the copy from which such copies were prepared, only as part of the lease, sale, or other transfer of all rights in the program. Adaptations so prepared may be transferred only with the authorization of the copyright owner."

Subject to those limitations, the purchaser of this equipment is granted a paid up non-exclusive license to use its software on one host computer.
How To Play For IBM®-PCjr.

SEASAME STREET

Big Bird’s Special Delivery™

To Set Up Your Computer
1. Connect your computer to a monitor or TV. DO NOT TURN ON YOUR COMPUTER.
2. Plug the cartridge into your computer’s left cartridge port.
3. Turn on your monitor or TV and adjust the volume.
4. NOW TURN ON YOUR COMPUTER.
The title screen will appear.

To Start Your Game

Game Play
Press 1 or 2 to select the game you want to play. Then press ENTER.

Skill Level
Press 1 to see the on-screen instructions.
Press 2 or 3 to choose your level. Then press ENTER.

Object Of The Game
Help Big Bird and Little Bird deliver packages to stores with matching pictures.
Making a Match

In *The Same Game*, a matching picture looks just like the one on your package.

In *Find The Right Kind*, a matching picture is the same *kind* of thing as the one on your package.

PLAY!

Big Bird will give Little Bird a package to deliver.

Press \[ \text{←} \] to move Little Bird to the left.
Press \[ \text{→} \] to move Little Bird to the right.
Press \[ \text{↑} \] to deliver a package.

If you make a correct match, the shopkeeper nods "yes," Little Bird delivers the package and the shop lights flash. Press \[ \text{ENTER} \] for a new package.

If you make an incorrect match, the shopkeeper shakes his head "no." Think about which picture matches your package, then move Little Bird to another store and try again.

Press \[ \text{ESC} \] to end your game and return to the Game Menu.
