## General

To load La Belle Lucie, first insert the disk, then type RUN"START". La Belle Lucie uses the right joystick port, and does not support the high-res interface. You must unplug your interface in order for the mouse or joystick to work correctly. During play, use your joystick or mouse to move the pointer to the card you want to pick up (select) and click the button. If your play is a legal one for the rules of the current game you are playing, the card will highlight. Move the pointer to the card or spot you wish to move the highlighted card to and click the button again. If the destination is legal, the card will be moved.

## Rules of Play

Enter a question mark at any time after all cards are dealt and displayed on the screen in order to obtain the rules of play.
