SAGA The Sorcerer's Curse
A Disk Graphic Adventure
for the Tandy Color Computer
from Ark Royal Games

Centuries ago, Arcadia was the capital of a rich kingdom where the good king Alexander ruled wisely. During his reign his wizard Melcior was accused of practicing black magic and was banished from the kingdom. Before he left, however, the swore revenge. Life in Arcadia remained peaceful until one day when the king's beautiful daughter, Princess Jasmine, was kidnapped by the evil wizard's minions and placed under a magic spell. The king sent messengers throughout the land to find brave men to save his lovely daughter. The reward would be her hand in marriage. But so far, after many years, no one has returned to tell an adventure.

It is now up to you to find her and release her from the cursed spell. The task will not be easy: monsters, riddles and many secrets lurk beneath the wizard's spell, in the depths of his evil stronghold.

Saga comes on two disks: the game disk and the picture disk. To load, place the game disk in drive 0 and type RUN 'GAME' if you own disk version 1.0 or type RUN 'GAME1' if you own disk version 1.1. (Version numbers are stated at the top of screen when computer is turned on.)

Text will explain how to set screen colors and loading procedures. Follow prompts.

After inserting picture disk ENTER <P> (ignore <> ) and game will start.

After each room description you will direction references: N,S,W,U,D. Use these one stroke commands to move in that direction. Ex: to go down, Enter<D>. It is a good idea to draw a map!
