Slots & Cards

INTRODUCTION

Slots and cards is a collection of simulations of the most popular video slots and gaming machines being used in the casinos of Nevada. Designed with the aid of a slot mechanic from one of the major hotels on the Las Vegas Strip, the odds and reel loadings have been figured just as they are done in the casinos.

Imagine yourself as Mr. Big, a chorus girl on one arm and a bag of coins in your other hand - ready to beat the odds! Start off your winning streak at the slot machines. There are multiplier machines, as well as Sevens Wild, Multi-bar, and Fruit Multi-bar. Next haul your winnings over to the Blackjack table and go up against the diabolical skill of the dealer. Then challenge your skills with Keno and High/Low. When you are on a hot streak take up the ultimate challenge - Video Poker!

Great care has been taken to ensure that the machines are as realistic as possible, from the reels’ cock and bounce on the slots to the detailed graphics on the cards. The graphics were designed from a reel insert from an actual slot machine. Reels are the standard 22 stop type, and odds (usually between 94% to 97%) are figured exactly like slots in casinos.

BEFORE YOU START

Backup your disk! The disk is not copy protected. Be sure that you copy all files. When you have made your backup, store the original away in a safe place and use the backup (even if you are going to install this program on your hard disk). We suggest using disk copy because of subdirectories when making a backup for the IBM PC.

To install this software on the hard disk of an IBM PC or true compatible, place the floppy in drive a:. Type "INSTALL" from drive a:, press <return>, and you will see the following install menu:

NIMBUS CLUB CASINO INSTALL UTILITY
Version 3.0

ADAPTER TYPE: CGA EGA TANDY 1000
DISK TYPE: DRIVE LETTER:
PATH:
STATUS: NORMAL
[SPACEBAR]-CHANGE HILITE [ENTER]-SELECT HILITED OPTION [ESC]-
PREVIOUS OPTION
Enter the appropriate information.

TO START THE GAME

FOR THE IBM PC:

On a floppy disk system:
Make sure your disk is in the default drive, type in CASINO and press <ENTER>. You will be greeted by a menu screen displaying the machines available on the aisle, and options for exiting, going to the change booth, and moving...
to another aisle. To make your selection, press the up and down arrow keys to highlight the desired option or game and press <ENTER>.

On a hard disk system:
Change to the directory NIMBUS and type CASINO. You will get a menu screen displaying the aisles and an exit option. To go to an aisle, press the number of the aisle. You will then get a menu screen for that aisle. To make your selection, press the up and down arrow keys to highlight the desired option or game and press <ENTER>.

TO ENTER CREDITS

Select the CHANGE BOOTH function at the games menu. You may enter any amount up to 999 credits. If you run out of credits while playing a machine, pressing <C> or <M> will send you to the CHANGE BOOTH option on the menu.

TO CHANGE AISLES

Select the GO TO ANOTHER AISLE function on the games menu. On a floppy system or a hard disk system, a menu displaying the aisles will appear. Press the number of the desired aisle. The <ESC> key will also return you to the aisle menu screen.

FOR THE COLOR COMPUTER:

For COCO I and II, put disk in drive 0. Type RUN "DOS" and press <ENTER>. For COCO III just type "DOS". You will see the following menu.

NIMBUS CLUB CASINO

SLOTS IN THIS CASINO

Aisle 1
or
Aisle 2
or
Aisle 6

[SEE THE FOLLOWING LIST]

USE UP/DOWN ARROW KEYS TO CHANGE <ENTER> TO SELECT
<C>omposit OR <R>GB?

Aisle 1 - Disk (slots)
• Right-Left/Left-Right
• Sevens wild!
• Multibar
• Bar 5
• Fruit Multi-Bar
• Go Home (Quit)

Aisle 2 - Disk (Slots)
• 5-Line Bar 5
• 3-Line Fruit
• 5-Line Fruit
• 3-Line Melons/Bars/Sevens
• 3-Line Lucky Dollar
• Go Home (Quit)

Aisle 6 - Disk (Cards/Keno)
• Poker
• Joker's Wild!
• Blackjack
• Keno
• Go Home (Quit)

Select a game using the arrow keys. Press <ENTER>. Select either <C>, or <R> then press <ENTER>. Press <K> for Keyboard, or <J> to use your Joystick to simulate pulling the handle on a slot machine. Next you will be asked how many credits

Slots & Cards page 4
you want. Enter a number up to 9999, and then press <ENTER>.

Your selected slot machine will now be displayed and ready to play.

ON ALL GAMES

When "Insert Coin" is flashing, pressing the <C> key will enter one coin, pressing the <M> key will enter the maximum amount of coins, provided enough credits remain, and no coins have been played. The <P> key displays the payoffs (except High/Low and Blackjack). The <F> key toggles the sound on and off. After coins have been played, pressing the <P> key will begin play on the card games, and keno. Pressing <SPACEBAR> will roll the reels on the slots.

ABOUT THE SLOTS

A multiplier is a slot machine which pays on one payline only, but multiplies the payoff by the amount of coins played. A multi-payline slot pays a set amount for a win, but you may buy more than one payline. On a three payline machine the first coin pays on the center line, the second coin pays on the top line, and the third coin pays on the bottom line. On the five payline machines the first three coins pay like the three payline slots, but the fourth and the fifth coins form an "X" across the face of the machine with the fourth coin paying from the upper left to the lower right, and the fifth coin paying from the lower left to the upper right. Pointers on the machines will light up to show which payoffs are active.

TO PLAY THE SLOTS

After entering the coins, pressing <SPACEBAR> spins the reels. On the multiplier slots, the payoffs are on the center line with the payoff multiplied by the number of coins bet.

TO PLAY VIDEO POKER

After the cards have been dealt, pressing the number keys 1, 2, 3, 4, or 5 will hold the selected cards, which are numbered from left to right on the screen. To throw away held cards, press the <C> key. Press the <S> key if you wish to stand pat. Press the <D> key to draw after you have held all the cards you want to keep.

TO PLAY BLACKJACK

Blackjack pays 1 1/2 to 1 (3 to 2). Player wins on 6 cards totaling 21 or less. Dealer must hit on 16 or less. If dealer's up card is an ace, you will be asked if you wish insurance. Press <Y> to accept or <N> to reject. If accepted and dealer has Blackjack, players bet is returned, if dealer does not have 21, you will be charged 1/2 of your bet (rounded to dealers advantage). No prompts will appear if you do not have enough credits to handle any of the options.

< H > Hit. Deals player another card.
< F > Stand when you FINISH your hand press this key to begin dealer play.
< S > Split. Allowed if both player cards are the same and enough credits remain to double the bet. Split aces to receive only one hit apiece.
< D > Double down. Allowed if first two player cards add up to 10 or 11, and enough credits remain to double the bet. Only one more card is dealt to player.
< G > Surrender (Give up). Allowed if dealer has an Ace, King, Queen, Jack, or 10 as a show card. Cancels play and returns half your bet (rounded to dealers advantage).

TO PLAY KENO

To enter a number, simply type the number (single digits type 0 (zero) before the number, such as 01 for one). You
may play 3 to 9 spots. Play will begin automatically when 9
spots are entered. If you wish to play less than 9 spots,
press the <S> key when you have selected the spots you
wish to play. After the first game you may press the <R>
key when ENTER NUMBERS appears on the screen to
repeat your selected numbers. If you make a mistake, press
the <E> key to erase selected numbers.

TO PLAY HIGH/LOW

After the outside cards are dealt, the odds and spread are
displayed. You are betting on the center card falling within
the outside cards, with aces being high and deuces being
low. If you wish to raise your ante, press the <C> key to
raise 1 coin (press the <P> key to start when you enter your
desired raise) and press the <M> key to raise to the amount
of the ante (this will only function if you have enough credits
to cover your bet). If the outside cards are only 1 apart, you
lose. You may also win on three of a kind with three aces
paying 100 to 1 (all odds are displayed after outside cards
are dealt, and vary with the spread).

NIMBUS CLUB CASINO
Order more games for your PC compatible with at least 128K of
memory, a CGA card, and MS-DOS 2.0 or higher.

AISLE 1 - MULTIPLIER SLOTS
Contains 3 reel narrow slots that pay on the center line. The wins
are multiplied by the amount of coins played.

AISLE 2 - MULTI-PAYLINE SLOTS
Contains 3 reel narrow slots in 3 and 5 payline models. 3 payline
models use horizontal lines across the three lines showing on the
face of the slot machine. 5 payline models are the same, but
contain an 'X' across the face for the fourth and fifth payline.

AISLE 3 - WIDE REEL SLOTS
Contains multiplier, 3 payline, and 5 payline slots with reels that
are 50% wider than the conventional narrow reels.

AISLE 4 - 4 AND 5 REEL SLOTS
These machines are a little different, 4 reel slots are in 3 payline
and multiplier formats. 5 reel machines use the combinations of
narrow reels in different combinations to simulate multiple
machines.

AISLE 5 - PROGRESSIVE CAROUSEL
This aisle has a central jackpot tied to a 5 reel machine, 4 reel
machine, 3 reel in both narrow and wide reels, and video poker.
The jackpot increases by 10% of the bet on any machine played
and is won by hitting the big win on any machine with maximum
coins entered.

AISLE 6 - VIDEO CARDS & KENO
This aisle contains video poker, joker's wild video poker,
blackjack, high/low, and keno. These are simulations of actual
machines, and are not intended to simulate live gaming.

IBM versions of aisles 2 through 5 can be purchased directly from:

Nimbus Enterprises
416 Crestway Rd.
Nevada 89015

Each disk contains five machines. The cost is $19.95 per
aisle plus $2.00 for shipping & handling, Nevada residents add
6% for sales tax.
INSTRUCTIONS AT A GLANCE

ON ALL MACHINES...
Pressing C - Enters one coin

To enter numbers, type the desired number (use two digits: 01, 02, 03...)Pressing S - Starts the computers number selection if less than 9 numbers are picked
Come and join us at the Roundtable™
Where the GENie™ and the Griffin meet!

When General Electric's high-tech communications network meets MichTron's programmers and support crew, ST users around the country will hear more, know more, and save more.

We know that our low prices and superior quality wouldn't mean as much to you without the proper support and service to back them up. So we are now available on GENie, the General Electric Network for Information Exchange. GENie is a computer communications system which lets you use your personal computer, modem, and communication software to gain access to the latest news, product information, electronic mail, games, and MichTron's own Roundtable!

The Roundtable Special Interest Groups (SIG) gives you a means of conveniently obtaining news about our current products, new releases, and future plans. Messages directly from the authors give you valuable technical support of our products, and the chance to ask questions (usually answered within a single business day).

GENie differs from other computer communication networks in its incredibly low fees. With GENie, you don't pay any hidden charges or minimum fees. You pay only for the time you're actually on-line with the MichTron product support Roundtable, and the low first-time registration fee.

For more information on GENie, follow this simple procedure for a free trial run. Then if you like, have ready your VISA, Mastercard or checking account number and you can set up your personal account immediately -- right on-line!

1. Set your modem for half duplex (local echo): 300 or 1200 baud.
2. Dial 1-800-638-8369. When connected, type HIHI and press Return.
3. At the U# prompt, type XJM11957,GENIE and press Return.

And don't forget, MichTron's Bulletin Board System, The Griffin BBS, is still going strong (the griffin is the half-lion/half-eagle creature on our logo). Our system is located at MichTron headquarters in Pontiac, Michigan. For a trial run, call (313) 332-5452.

GENie and Roundtable are Trademarks of General Electric Information Services.

YOUR RIGHTS AND OURS: This copy of SLOTS & CARDS is licensed to you. You may sell your copy without notifying us. However, we retain copyright and other property rights in the program code and documentation. We ask that SLOTS & CARDS be used either by a single user on one or more computers or on a single computer by one or more users. If you expect several users of SLOTS & CARDS on several computers, contact us for quantity discounts and site-licensing agreements. Also if you intend to rent this program, or place this program on a BBS, contact us for the appropriate license and fee.

We think this user policy is fair to both you and us; please abide by it. We will not tolerate use or distribution of all or part of SLOTS & CARDS or its documentation by any other means.

LIMITED WARRANTY: in return for your understanding of our legal rights, we guarantee SLOTS & CARDS will reliably perform as detailed in this documentation, subject to limitations here described, for a period of thirty days. If SLOTS & CARDS fails to perform as specified, we will either correct the flaw(s) within fifteen working days of notification or let you return SLOTS & CARDS to the retailer for a full refund of your purchase price. If your retailer does not cooperate, return SLOTS & CARDS to us. While we can't offer you more cash than we received for the program, we can give you this choice: 1) you may have a cash refund of the wholesale price, or 2) you may have a merchandise credit for the retail price, which you may apply toward buying any of our other software. Naturally, we insist that any copy returned for refund include proof of the date and price of purchase, the original program disk, all packaging and documentation, and be in salable condition.

If the disk on which SLOTS & CARDS is distributed becomes defective within the warranty period, return it to us for a free replacement. After the warranty period, we will replace any defective program disk for $5.00.

We cannot be responsible for any damage to your equipment, reputation, profit-making ability or mental or physical condition caused by the use (or misuse) of our program.

We cannot guarantee that this program will work with hardware or software not generally available when this program was released, or with special or custom modifications of hardware or software, or with versions of accompanying or required hardware or software other than those specified in the documentation.

Under no circumstances will we be liable for an amount greater than your purchase price.

Please note: Some states do not allow limitations on how long an implied or express warranty lasts, or the exclusion or limitation of incidental or consequential damages, so some of the above limitations or exclusions may not apply to you.

UPGRADES AND REVISIONS: If you return your information card, we will notify you if upgrades to SLOTS & CARDS become available.

FEEDBACK: Customer comments are VERY important to us. We think that the use, warranty and upgrade policies outlined above are among the fairest around. Please let us know how you feel about them.

Many of the program and documentation modifications we make result from customer suggestions. Please tell us how you feel about SLOTS & CARDS - your ideas could make the next version better for all of us.
